

WELCOME TO THE CLIMATE COACHING ALLIANCE

www.climatecoachingalliance.org

February 2023

PURPOSE: TRANSFORMING OUR PRACTICE; TRANSFORMING OUR IMPACT; TRANSFORMING THE PROFESSION

Participating in the positive shift in human awareness to effect wider systemic changes in the world towards a truly regenerative future. “To give life to the forest of life”.

We influence the global professional coaching community to bring in the deep and difficult questions of climate and ecological emergency into coaching conversations.

If we are magnificently successful, our current role will no longer be needed by 2025. We are:

- Open and free, following living systems principles to allow the complexity and possibility within the widest set of relationships, offerings and shared intelligence to emerge and ripple.
- More than 2,000 members across 6 continents with many sub communities – geographic, linguistic and by interest.
- Run entirely by volunteers.

THE ECO-PHASE CYCLE: FROM PERMISSION TO ACTION
