

WELCOME TO THE CLIMATE COACHING ALLIANCE

NEW MEMBERS' ORIENTATION MEETING

New members' orientation meeting

- We conduct 2 sessions on the first Monday of every month by considering the time zones of the whole world:
 - 8am UK morning
 - 5pm UK afternoon
- Introduction of CCA
- Get to know each other and make connections amongst new members

AGENDA

- Presencing
- Our purpose
- The eco phase cycle
- Information (pods, seedbank)
- Closing
- Useful links

PRESENCING

Welcome:

Introduce yourself – who, where, what.

What has inspired you to come to this session today?

The CCA story

- Our vision is to build the confidence and capability of coaches to accelerate climate action.
- We are a **volunteer movement** that's designed as a 'living system'. There is no hierarchy or legal structure. Membership and attendance at events are free.
- As we've grown to over **3,500 members in more than 70 countries**, we have developed an ecosystem of **30 self-organising "pods"** based on geography, language or topic.
- We have an annual **festival** and a large number of **ongoing events** to share ideas, learn effective approaches, and build relationships and allies.
- Our intention is to be an inclusive, diverse, connected and loving movement to which all members are able to contribute.

What we do: Our 3 missions

1. Transforming our practice –

We bring together coaches, coaching psychologists, coaching supervisors, facilitators and other leadership professionals sharing resources, exploring practice, and hold dialogue in order to create the capacity to play its part in meeting the climate and ecological emergency.

2. Transforming our impact –

By developing our practice we provide clients (individuals, leaders and their teams) with the agency to step into our necessary leadership role as we engage more fully with the climate and ecological emergency.

3. Transforming the profession –

We intend to inspire and enable the global coaching and related professions to expand their awareness and influence in service to making progress on the wicked problems that are the climate and ecological emergency.
